WASHINGTON, D. C. 20460 REGION VI

MAY 3 1988 03 MAY -9 PM 4:19  
HAZARDOUS WASTE MGMT. DIV.

OFFICE OF  
SOLID WASTE AND EMERGENCY RESPONSE

MEMORANDUM

SUBJECT: Seventeenth Remedy Delegation Report, Part One  
FROM: J. Winston Porter  
Assistant Administrator  
TO: Regional Administrators, Regions I-X

Purpose: To delegate selection of remedy authority for all Records of Decision scheduled for signature during the third and fourth quarter FY88.

Background and Objectives:

EPA Delegation of Authority 14-5 authorizes delegation of remedy selection decisions to the Regional Administrators. These procedures are outlined in OSWER Directive 9260.1-9, dated March 24, 1986. To further streamline this process and facilitate planning, I am delegating all remaining RODs scheduled for signature during this fiscal year. Our objective is to provide Regional management greater flexibility and control for meeting project commitments by reducing the number of Headquarters' consultations. If this approach is decidedly beneficial to the program, future delegations may be managed in this manner.

This Remedy Delegation Report identifies those sites delegated to the Regional Administrators for selection of remedy. At your discretion, this authority may be redelegated to the Deputy Regional Administrator. Part Two of this report identifies three additional delegations for sites from which I am recused.

Implementation:

The remedial actions delegated in this report are described on the following pages. In addition to on-going consultation between the Remedial Project Manager and the Headquarters' Regional Coordinator, it is recommended that the Regions consult with Headquarters at the Division Director

006337

level for those sites involving nationally precedent-setting issues, or where there is an unresolved issue relating to State concurrence, ARAR compliance or use of waivers, PRP settlement/negotiations, multi-source ground water contamination, or other such significant issues. For any site where the proposed remedy exceeds \$30 million dollars or utilizes a fund balancing waiver (SARA 121(d)(4)), the Region must consult with Headquarters.

In addition to those sites listed in the attachment, if there are other sites scheduled for ROD signature during third or fourth quarter FY88 requiring delegation, please notify Caroline Roe (FTS 475-9754) in the Hazardous Site Control Division.

Further questions should be addressed to Caroline Roe (FTS 475-9754) or Beverly Dishner (FTS 475-7283) in the CERCLA Enforcement Division.

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY  
WASHINGTON, D.C. 20460

MAY 3 1986

OFFICE OF  
SOLID WASTE AND EMERGENCY RESPONSE

MEMORANDUM

SUBJECT: *Seventeenth* Remy Delegation Report, Part Two

FROM: *Jack McGraw*  
Deputy Assistant Administrator

TO: Regional Administrator  
Regions III and IX

Purpose: To delegate selection of remedy authority for all Records of Decision scheduled for signature during the third and fourth quarter FY88.

Background and Objectives:

EPA Delegation of Authority 14-5 authorizes delegation of remedy selection decisions to the Regional Administrators. These procedures are outlined in OSWER Directive 9260.1-9, dated March 24, 1986. To further streamline this process and facilitate planning, all remaining RODs scheduled for signature during this fiscal year are being delegated. Our objective is to provide Regional management greater flexibility and control for meeting project commitments by reducing the number of Headquarters' consultations. If this approach is decidedly beneficial to the program, future delegations may be managed in this manner.

This Remy Delegation Report identifies three sites delegated to the Regional Administrators for selection of remedy. At your discretion, this authority may be redelegated to the Deputy Regional Administrator. The sites listed in Part Two of this report are those from which the Assistant Administrator is recused. Part One of the report identifies a number of other sites delegated directly by the Assistant Administrator.

006346

Implementation:

The remedial actions delegated are described below:

| <u>Region</u> | <u>Site (Lead)</u>            | <u>Status of Delegation</u>                    |
|---------------|-------------------------------|--|
| III           | Avtex Fibers, VA<br>(RP)      | 1st operable unit. (Delegated)                 |
| IX            | South Bay Asbestos,<br>CA (F) | Operable unit to address<br>levee. (Delegated) |
| IX            | Stringfellow, CA<br>(S)       | Ground water operable unit.<br>(Delegated)     |

In addition to on-going consultation between the Remedial Project Manager and the Headquarters' Regional Coordinator, it is recommended that the Regions consult with Headquarters at the Division Director level for those sites involving nationally precedent-setting issues, or where there is an unresolved issue relating to State concurrence, ARAR compliance or use of waivers, PRP settlement/negotiations, multi-source ground water contamination, or other such significant issues. For any site where the proposed remedy exceeds \$30 million dollars or utilizes a fund balancing waiver (SARA 121 (d)(4)), the Region must consult with Headquarters.

If there are other sites scheduled for ROD signature in third or fourth quarter FY88 requiring delegation, please notify Caroline Roe (FTS 475-9754) in the Hazardous Site Control Division.

Further questions should be addressed to Caroline Roe (FTS 475-9754) or Beverly Dishner (FTS 475-7283) in the CERCLA Enforcement Division.
